Electric hybrid from Stagecoach

A hybrid bus takes its power from more than one source. In the case of the Stagecoach electric-hybrid, these two power sources are the traditional diesel engine and a highly sophisticated battery system. Low carbon buses use at least 30% less fuel and emit nearly a third less carbon than a conventional bus

Easy access on buses

Journeys run with low floor buses have no steps at the entrance, making getting on and off easier. Where shown, low floor buses have a ramp for access and a dedicated space for wheelchairs and pushchairs inside the bus. The bus operator will always try to provide easy access services where these services are scheduled to run.

Using this timetable

Timetables show the direction of travel, bus numbers and the days of the week.

Main stops on the route are listed on the left. Where no time is shown against a particular stop, the bus does not stop there on that journey. Check any letters which are shown in the timetable against the key at the bottom of the page.
